RE: Letter of Recommendation

20/20 Insight provides ESD services to Avis Budget. These include SME on-boarding; diagnostics, development plans; funding application; M&E; and ESD compliance management. They have added real value to the beneficiaries our programmes and our business by supporting the competitiveness and sustainability of our SME suppliers, partners, and clients.

It has been a pleasure working with them as we have found them dependable with quick turnaround times. They have assisted us in developing and implementing innovative ESD interventions that maximise socio-economic impact and achieve cost-effective compliance with the ESD Codes.

I happy to recommend their services to any corporate ESD programme.

Yours Sincerely,

Litha Nkombisa
Chief Sales Executive
